DISSERTATION

Beyond the Rubicon: Command and Control in Regional Nuclear Powers

Committee: Colin Elman (chair); Daniel McDowell; James Steinberg; Brian Taylor

What factors explain the origins of command and control in regional nuclear powers? Using original interview data with political and military elites from India, Pakistan, and apartheid-era South Africa, I show that the competition for domestic political influence between civilian and military actors offers significant leverage for explaining variation in these nuclear management systems, as well as why command and control arrangements persist over time.
